

DEFENCE READY SUPPLIER

Recognised as one of Australia's leading advanced manufacturing service providers. We deliver integrated, **end-to-end solutions** offering a **one-stop-shop** for design, engineering, precision manufacturing, and project execution.

Head Office:
9 Deloraine Road,
Edwardstown,
SA 5039 Australia

CAPABILITIES

CAD, Project Management, Design, Manufacturing, Testing and Reporting.

Advanced CNC Machining, 5 axis and 3 axis for complex 3D shapes, profiles or 2D components.

Advanced High End CNC Wire cutting and CNC EDM (Spark erosion).

Reverse Engineering, Design Improvement, Prototyping and Production.

Jigs & Fixtures, Plastic Injection, Die-cast, Metal Stamping Tool.

Microscopic Laser Welding using parent materials, under controlled conditions.

Injection moulding, overmoulding, ultrasonic welding/vibration welding, annealing, heat staking and EMI/RFI shielding.

MIG & TIG laser welding, precision laser cutting, turret punching, powder coating and advanced surface preparation.

DISCRIMINATORS

Over 50 years of experience in project management and through life support, collaborating with Defence Primes and their suppliers.

Multiple coordinate measuring machines (CMM).

Through life service and support for long life-cycle projects.

Zero defect quality.

Space sector - producing highly accurate, complex parts.

Design input to optimize design & manufacturing.

Prototype to product to production specialists.

Fast lead times.

Low to med production specialists composite and alloy material.

Simple to complex machining.

ACCREDITATIONS

A global standard ensuring manufacturing quality, consistency, and continuous improvement to meet industry requirements.

SME business of the year

Recognized for our excellence in innovation, it highlights the business's impact, quality products, and contribution to the local and broader manufacturing community.

Manufacturer of the year

Awarded exceptional performance and innovation, it highlights excellence in quality, efficiency, and contribution to industry advancement.
